

MHCH 745: Applied Methods for Health Transformation Implementation in MCH

Enroll now and join your peers from across the country in an online course about health transformation to be offered fall semester 2018! Earn 1 or 3 academic graduate credits or a certificate of completion.

MHCH 745 is open to students enrolled in any of the MCHB-funded Graduate Education Programs to Educate the Next Generation of MCH Leaders (CoE, Catalyst, LEND, LEAH, DBP, MCH Nutrition, and PPC Programs) AND to MCH professionals interested in lifelong learning.

Are you ready to contribute to state or national health transformation? Would you like to elevate your implementation skills and leadership capacity? **Don't miss out!** Explore the art and science of MCH health transformation through this unique online course

Back for the fifth time by popular demand, MHCH 745 is designed to integrate the theory, research literature, and evidence-supported practices that promote optimal population health outcomes in maternal and child health. The course will allow participants to examine and apply knowledge and skills in the following areas:

- MCH Financing
- Evidence-Based Decision Making
- Applied Implementation
- Quality Improvement
- Systems Thinking
- Change Management
- Health Equity
- Sustainability

"I will HIGHLY recommend this course to my classmates and colleagues. I truly appreciate the opportunity to participate and am already applying the knowledge and skills gained into my daily work in MCH systems integration. THANK YOU!" – Former Student
